

Job Title:

Microsoft Software Developer

Who we are and what we offer you

Pinnacle is a trusted guide and expert partner of the world's leading law firms. We help our clients get the most from their critical business applications and the data these applications hold. We also have long-standing partnerships with both Thomson Reuters Elite and Intapp. We work alongside them to develop products that give our clients the maximum value, opportunity, and advantage.

Our sole focus is on the legal sector and the specific technologies law firms depend on. This means we deliver projects faster and better than if we had a more general focus.

As a leading global consultancy, we work on projects with the top 100 law firms both in the UK and internationally. We are experiencing rapid growth so are looking for new talent in our Microsoft development team.

Your role

Will be to assist the team with all aspects of software design and coding. The Pinnacle Microsoft Development team designs, builds and tests its own software products. These range from data utilities to applications – all to provide our clients in the legal sector with additional and useful software functionality

Your key responsibilities will include:

- ▲ Assisting with all aspects of software design and coding.
- ▲ Attending and contributing to company development meetings.
- ▲ Writing and maintaining code.
- ▲ Working on minor bug fixes.
- ▲ Responding to requests from clients
- ▲ Gathering information from consumers about program functionality.
- ▲ Writing reports.
- ▲ Conducting development tests.

With a competitive salary and benefits package that reflects the skills and experience of a candidate in the early part of their career, with 3 years' experience as a minimum.

Is this you?

While it may be useful to have worked in the professional services sector, it is not essential. What is essential is a passion for high quality development work allied with the skills necessary to ensure that it is delivered consistently and to delight our clients with what we do.

Skills and experience we are looking for:

- ▲ Object-oriented programming / .NET development
- ▲ JavaScript development
- ▲ Microsoft SQL development
- ▲ Knowledge of cloud-based development. Microsoft Azure:
 - Data factory
 - Logic Apps
 - Azure Functions
- ▲ Knowledge of Microsoft Power Platform:
 - PowerApps
 - PowerAutomate
 - PowerQuery
- ▲ Knowledge of Natural Language Understanding and AI
- ▲ Ability to work proactively, without close supervision.
- ▲ Excellent English language verbal and written communication skills
- ▲ Good organisational and analytical skills with an attention to detail
- ▲ Flexibility to switch between projects according to business priorities.

What we offer

We offer career opportunities and attractive packages (competitive salaries, benefits, incentives, and a profit share scheme) to both new and experienced consultants and developers who share our ambition to be the best at what we do. We have a strong professional culture in which we value the hard work required to achieve high levels of client satisfaction. In short, we encourage ambition and reward success.

The next steps

Please email your CV to helen.mcconnon@pinnacle-oa.com with a note of introduction that will persuade us to invite you in for a chat.

We look forward to hearing from you.
